PROFESSIONAL SUMMARY

Information Systems graduate with hands-on experience developing web applications using JavaScript, TypeScript, React.js, Next.js, Node.js, and Express.js. Experienced in building and integrating REST APIs, managing MySQL and PostgreSQL databases, and debugging/troubleshooting on both frontend and backend. Comfortable with Git and GitHub in branch-based development workflows, with experience using Linux Ubuntu, CachyOS, Docker, Nginx, and application deployment. Strong analytical thinking, problem solving, teamwork, and high eagerness to learn new technologies.

WORK EXPERIENCE

Programmer Intern | PT. Gama Integra Informatika Yogyakarta | Februari 2024 – Januari 2025

- Developed and maintained information systems and performed troubleshooting across various application modules.
- Analyzed and resolved technical issues on the application, database, and server environment.
- Managed MySQL databases, including query creation and optimization, backups, and data integrity.
- Managed and monitored Linux Ubuntu-based servers within a Docker environment.
- Collaborated with internal teams on system development, improvement, and enhancement.
- Produced technical documentation, SOPs, and operational reports as references for system development and maintenance.

PROJECTS & SYSTEM IMPLEMENTATIONS

Web Training Report | React.js · Node.js/Express.js · PostgreSQL · Docker · Git

- Built a React.js frontend based on Figma designs and an Express.js backend with a decoupled architecture, integrated via REST API.
- Implemented multi-user functionality with 5 distinct roles and permission levels, so each user can access features according to their role and authority.
- Designed MySQL & PostgreSQL database schemas and set up the development environment using Linux CachyOS and Docker.
- Configured Nginx, reverse proxy, and SSL/TLS, and deployed the frontend and backend separately using Vercel and Railway.
- Managed source code with Git/GitHub using a structured branch workflow and produced technical project documentation.
- Demo link: <https://fe-training-gii.vercel.app>

Backend Babinsa Message System (BMS) | Node.js/Express.js · WebSockets · MySQL · Docker

(Internal project at PT. Gama Integra Informatika — some details are restricted under company confidentiality)

- Developed a real-time communication backend using Node.js and WebSockets, including reconnection logic to improve connection reliability.
- Implemented JWT-based authentication with hierarchical user role management and email notifications.
- Built report generation features with input handling and PDF export/save functionality.

Web Portfolio | Next.js · React.js · Supabase (PostgreSQL) · Cloudflare

- Built a portfolio website with a profile page, project showcase, and an admin panel for managing project data.
- Integrated an AI chat assistant to automatically help answer client questions.
- Built a web-to-email messaging feature with anti-spam protection using Cloudflare.
- Used Supabase (PostgreSQL) as the application database.

EDUCATION

B.Sc. Information Systems | Universitas Teknologi Yogyakarta (September 2021 – July 2025)

- GPA: 3.57 / 4.00
- Relevant Coursework: Web Design, Web Programming, Information Systems Analysis & Design, Object-Oriented Programming, Coding & Machine Learning, Database Systems, Business Management

Vocational High School, Computer & Network Engineering | SMK N 1 Tuntang (July 2018 June 2021)

- Competency areas: Network Service Technology, Device Configuration, System and Network Infrastructure Administration

TECHNICAL SKILLS

Soft Skills:

Communication • Analytical Thinking • Problem Solving • Teamwork • Adaptability • Time Management

Hard Skills:

- Languages & Frontend: JavaScript, TypeScript, React.js (components, hooks, state), Next.js, HTML5, CSS3, Tailwind CSS v4
- Backend: PHP, Laravel, Node.js, Express.js — REST API, authentication, business logic
- Database: MySQL, PostgreSQL (query, join, migration, relational data design)
- Tools & Version Control: Git, GitHub, GitLab, Postman, Docker (basic), Figma, VS Code
- Deployment: GitLab CI/CD (workflow), Linux Ubuntu, Nginx, hosting deployment
- AI-Assisted Development: Claude Code, GitHub Copilot
- Ready to quickly learn (per job requirements): NestJS, TanStack Start, TanStack Form, Zod, Drizzle ORM

COURSES & CERTIFICATIONS

- **Computer & Network Engineering (TKJ) Competency — SMK Negeri 1 Tuntang**
Certificate : <https://drive.google.com/file/d/1q0H5OlyoeanvaZHh1IB88rYjvLYDkwew>
- **PT. Gama Integra Informatika Internship — Programmer Internship**
Certificate : https://drive.google.com/file/d/1NXZrmeRYHXPP38xQ3Jh5CiIYaab1J5G_
- **Sololearn JavasCript**
Certificate : <https://drive.google.com/file/d/1q0H5OlyoeanvaZHh1IB88rYjvLYDkwew>
- **Sololearn HTML dan CSS**
Certificate : <https://drive.google.com/file/d/1scDvPNr-tbJIS-SJi83J05fczyJfYJhZ>
- **Altair RapidMiner Data Engineering Professional**
Certificate : https://drive.google.com/file/d/1n_LBI5jY18pxOI7SE9KD39Rtr5RcrHF
- **Machine Learning Professional**
Certificate : https://drive.google.com/file/d/1ZNPSLKibR42oBONySEmDIXPVaT_SHqL1
- **UTY Education, Certification, And Training Center English**
Certificate : https://drive.google.com/file/d/1P2_mcASRVcd72AiIO36hypUcQd4sVEAU
- **EF SET Certificater English**
Certificate : https://drive.google.com/file/d/1Kwr2gPvVcBSdqP_XwTlpuaX0TtGLE3TV
